#### Bresnahan's Big Salary Is a Boomerang

Not Having Room on the Payroll for a Bank President's Stipend, Brooklyn Passes Up High Priced Catcher of the Chicago Cubs. By JOHN E WRAY. -

ST. LOUIS, Mo., June 20.—That \$10.—

1000 salary of Roger Bresnahan may turn out more of a drawback than a delight. Charles Webb Murphy, who carries excess financial bag-sage with the same willingness the ordinary man would a centipede, is casting around for a means of retting to front.

out giving him his release.

But because of that milistone of a salary, no one will have Roger. Brook-lyn needed a catcher badly, with first string receiver Eswin out of the fray, but not needing a bank president on its payrolls, Ebbets sidestepped Roger and took a youngster named Heckenger.

Lyn needed a catcher badil, with first string receiver Egwin out of the fray, but not needing a bank president on its payrolls, fibbets sidestepped Roger and took a youngster named Heckenger.

No Tace For Bressankan.

Roger has served Murphy the double purpose for which he was acquired: That is to say, his usefulness in these respects is over. Murphy hired Roger:

To buffale Archer into according to a lower sainty than he asked.

To hang around in case Evers failed to make good.

Roger's utility in both respects has failen down, as Archer immediately raised his demand on Murphy—and got it—while Evers has made good as a leader.

The problem of what to do with a second string catcher advanced in years, who draws somewhere between 15656.67 and 110.000, according to varying reports. Is one that Murphy is thinking over.

And when Murphy torments his mind over dollars look out for the guillotine. Bumor says that Roger will never be content as a subordinate and that he is to head the Toledo team of the Federal league next year.

Johany Evers is the most mysterious manager in either league. John has nothing with which to do things; but

NeCARNEY THINKS BLOW DID NOT GAUSE McCARTYS DEATH Rapid Progress is Made in Trial of Ar-thur Pelkey, Charged With Causing Death of Prize Fighter.

Calgary, Aita. Can., June 20.—The trial of Arthur Pelkey, who is charged with causing the death of Luther McCarty in the prize ring here May 24, moved rapidly and two hours after the opening a jury had been selected.

William McCarney, McCarty's manager, testified in detail regarding the fatal contest and Dr. H. H. Mochier, who conducted the autopsy and decided death was caused by a blow to the jaw, gave extensive medical evidence. Referee Eddle Smith, of Chicago, and Joseph Price, a local newspaper man, also were examined.

floor."

McCarney did not believe the blow was hard enough to cause death. The testimony of Dr. Moshier remained unbroken under more than two hours of rapid fire questioning by attorneys for the defence. He maintained that, in his opinion, death was due to a slight dislocation of the fourth cervical vertebrae which resulted in a hemorrhage. The hemorrhage, he said, caused a clot of blood in the spinal canal and a pressure on the brain. Several medical experts will appear in behalf of the defence.

Os-Aple Celebration Plans Discussed and Baseball Feature Decided Upon.

Merchanis to Offer Inducement.

E. Neff, W. T. Hixson, George Le Baron and A. W. Beeves.

In the beginning of the discussion relative to the holding of the jubiles.

T. M. Wingo suggested that instead of paying \$6000 for a jubilee as was done last year without producing great results, this sum should be devoted to advertising El Paso and the valley through the medium of moving pletures shown through Kansas and other middle western cities and towns. He argued that this would bring farmers to the valley, and farmers are needed.

E. E. Neff agreed with him but saggested that the Os-Aple Jubilee should be maintained, even if only as a focal proposition for the henefit of El Pasoana.

George Le Baron sprang the baseball George Le Baron sprang the baseball bug and it bit everybody and all agreed that it would be the best thing to do. It looked as if the Os-Aple jubiles was to be abundaned when Le Baron jumped into the breach and turned the tide toward the great national game, and every boy present agreed it was the best thing that could be done.

### McGraw Combs Bushes For Ball Players

Pilot of the Giants Is Keeping His Scout Busy-Chance Is on a Still Hunt and May Secure Talent From the Texas League.

Graw is boating the mesquite far and wide for baseball talent this season, having inaugurated the most systematic and thorough search for incipient athletes that he has ever conducted. It is said that "Sinister" Dick Kinsella, the varnish king, of Springfield, Me., and McGraw's present chief of scouls, is under a commission that will take him over more territory that will take him ever more territory

is said that the poeriess leader has lined up a score of young athletes for September dolivery and that several will come from the Texas league, incubator of some of the best ball tossers in the land. Chance also has an eye on various promising young men out on the coast and in the Southern league.

For a long time past there has been an effort on foot to discover the reason why ball players hit less on the Pologrounds than any other field in either circuit, it being generally admitted that such is the case. Last season the Glants claimed that it was on account of the advertising signs in center field. They said these signs formed a background which practically destroyed their batting eyes.

This year the signs were left off a considerable section of the bleacher wail, and the space was painted an alturing green. Then the Glants proceeded to hit a little bit less than ever

More than likely the light hitting of some of the Yankees, like Birdle Cree, who is a natural 500 hitter, can be traced to the grounds. "Babe" Borton is naturally a much heavier hitter than he has shown here, and probably he is bothered by the new surroundings.
